

AGM Range Longhaul Surface Pumps

- Rugged, high capacity pumps with heavy duty bearing housings
- Stainless steel wear resistant rotor with hard chrome plating and stainless steel shaft for corrosion-free long life
- The Longhaul's high efficiency means low running costs
- Simple construction works within a forgiving range of tolerances, maintaining reliability, performance and efficiency
- Strength to withstand high heads and long pumping hours decade after decade
- Control the flow and speed of your pump by simply changing the pulley size

Choose your drive:

Diesel:

The low-revs pumping capacity of the Longhaul will deliver maximum water for least fuel

Petrol:

Throttle out for more water. Throttle in for lower speed and lower volume. It is that simple

Bareshaft:

The straightforward pulley drive lets you attach to whatever drive you have available

Electric:

Value out of your power bill. Longhaul will push water even when turning slowly - an advantage for those with fluctuating power supply

Features & Benefits

Capacity 0.33 to 14 lps

Heads up to 300 m

Typical applications include:

- Tank filling
 - Stock watering
 - Sprinklers
 - Long distance water transfer
-

Positive Drive Shaft

High quality, robust, keyed drive for positive power transmission.

Easy Bearing Maintenance

Industrial strength bearings are easy to get at and maintain.

Stainless Steel Flexishaft

Forms one moving part with the rotor to eliminate coupling wear, friction and corrosion.

Gland Packing

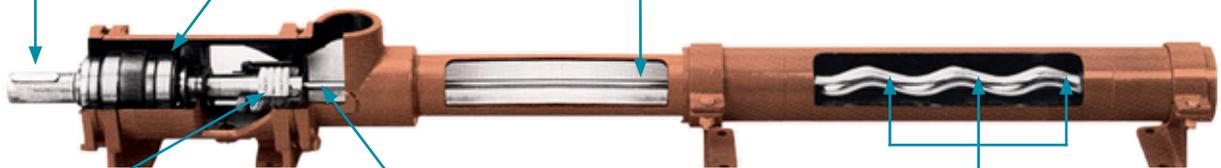

AGM models have robust gland packing rings.

4-Way delivery

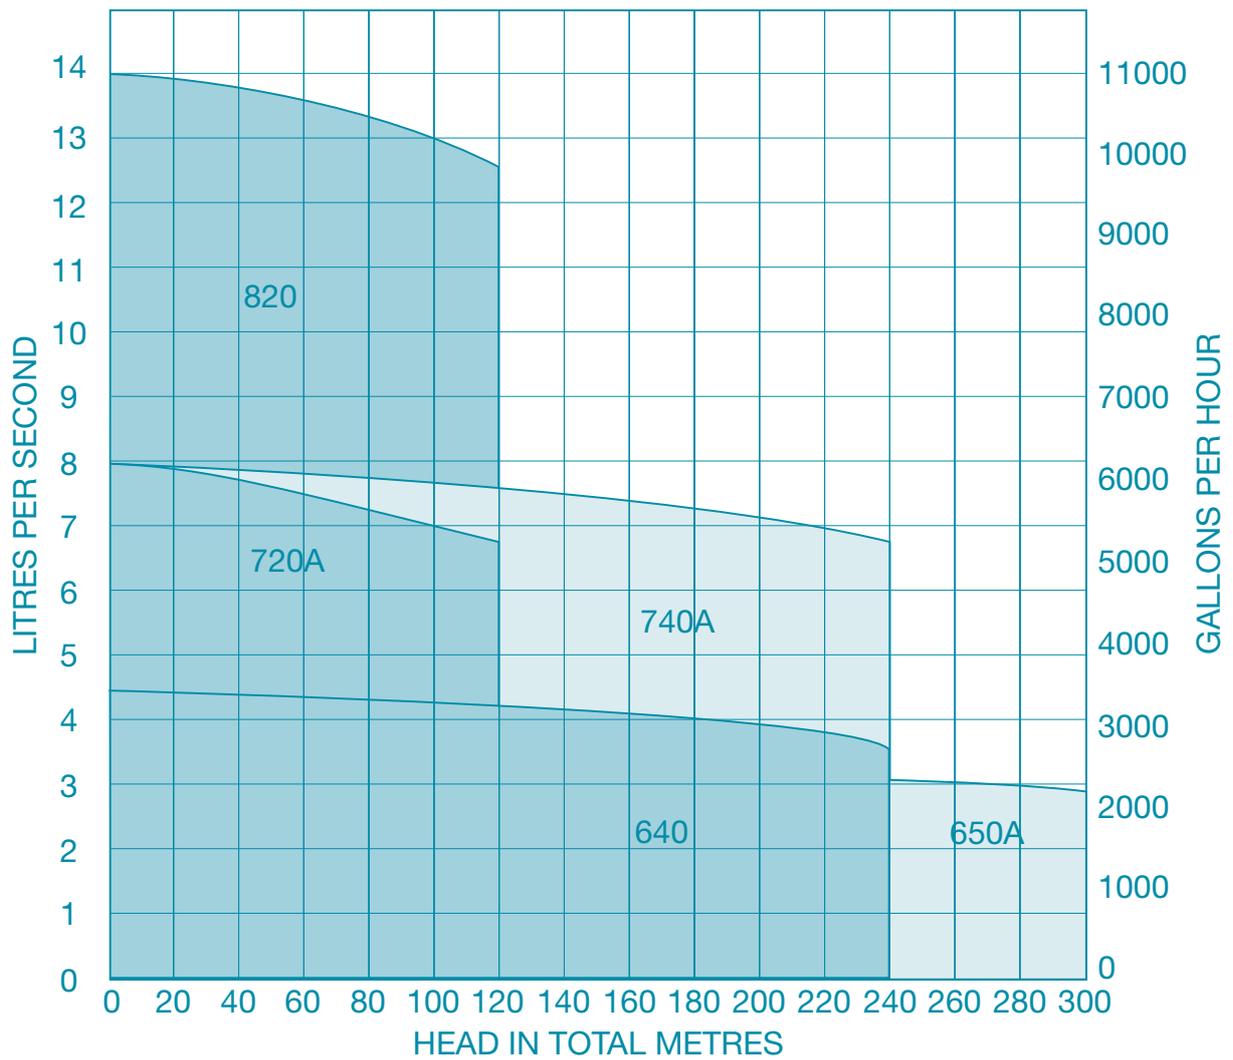

Is possible - left, right, up or down to suit your connections.

Rotor & Stator

These capsules of water spiral smoothly through your Mono Longhaul as the stainless steel rotor gently revolves against the rubber stator.
